

ELECTRIC SANDING MACHINE 70 X 198MM

GENERAL

CODE	DESCRIPTION
ESM70	Electric sanding machine 70 x 198mm

DESCRIPTION

Gerko electric sander 70 x 198mm is a high-quality sander suitable for a variety of jobs and intensive use. With this sander, you can sand large surfaces quickly and efficiently. Thanks to its powerful brushless motor and handy features, this sander is ideal for professional sanding of body parts, bumpers, window frames, doors, window sills, stairs, furniture and more. The Gerko sander with 3mm stroke allows you to quickly sand paint, lacquer, stain and varnish with a very smooth finish.

- Light weight with compact design for easy to move around, easily use by 2 hands for heavy sanding applications.
- The low design gives you good control over the sanding proces since your hand is close to the surface.
- Dustless sanding to be realized by connecting to the vacuum cleaner.
- Brushless motor for much longer life time, higher efficiency and lower noise.

FEATURES

- Professional orbital sander with 3mm stroke
- 350 Watt brushless motor for best performance
- Dust extraction system for a clean and safe workplace
- Adjustable speed between 4,000 and 10,000 rpm
- Highly ergonomic design with soft-grip parts
- Lightweight reduces vibrations
- Suitable for various materials
- Standard 5m cable
- Comes with 1 year Gerko warranty
