

DIAMOND NITRILE GLOVES

GENERAL

CODE	DESCRIPTION
NDG10	Diamond nitrile gloves M
NDG20	Diamond nitrile gloves L
NDG30	Diamond nitrile gloves XL

DESCRIPTION

Gerko's diamond nitrile gloves are specially designed to provide comfort and protection during the spraying process. Wearing nitrile gloves prevents hair, dander and skin grease from coming into contact with the paint and protects the user from chemical splashes. The innovative aspect of the product is a diamond grip pattern that ensures a perfect grip and control during your work. The gloves are designed to fit closely to the hand for maximum dexterity. Gerko diamond nitrile gloves can be used for an entire day if necessary.

DESCRIPTION

- Thickness 6mil (0.15mm)
- Extremely strong
- Diamond structure for a perfect grip
- Anti-slip gloves
- Ideally suited for mechanical and spray work
