

## FOAM SANDING DISCS

### GENERAL

CODE	DESCRIPTION
FD10	Foam sanding discs - Brown
FD20	Foam sanding discs - Green
FD30	Foam sanding discs - Blue

### PROPERTIES

- Saves money and reduces waste
- Uniform sanding pattern
- No clogging
- Sustainable
- Use dry or wet, best performance dry
- Provides the user with maximum performance
- Ensures a perfect finish for the next work step
- Flexible foam discs - follows surface irregularities and body contours

### TECHNICAL SPECIFICATIONS

Type	Coloured polyurethane foam
Density	24 kgm <sup>-3</sup>
Tear strength	125 Nm <sup>-1</sup>
Tensile strength	87 kPa
Adhesion	Synthetic
Nominal Size	Ø150

### ABRASIVE GRIT

**Foam sanding disc FINE - BROWN** performing grit P320 / 500. Recommended for sanding old coats of paint. Preparation for spraying primers. Sanding of primers.

**Foam sanding disc SUPERFINE - GREEN** performing grit P600 / 1000. Recommended for sanding old coats of lacquer. Preparation before spraying basecoat. Preparation of painted surfaces.

**Foam sanding disc MICRO FINE - BLUE** performing grit P1000 / 1500. Recommended for preparing painted surfaces. Matting of clear coat. The final varnishing result depends on the applied sanding pressure.
