

SENSOR COVERS

GENERAL

CODE	DESCRIPTION
SC18	Sensor covers ø18

DESCRIPTION

Gerko sensor covers are specially developed to cover parking sensors quickly and easily during the sanding, polishing and painting process.

FEATURES

- Saves time
- No need to dismantle the sensors
- Provides protection during various processes (sanding, polishing and painting)
- Prevents contamination of the sensors
- Patented pull tab for easy insertion and removal
- No shrinkage

DATA SHEET

Total thickness	3,5 mm (without liner)
Adhesive thickness	1,5 mm
Thickness of carrier	2,0 mm
Adhesive type	Silicone
Type of carrier	Polyester
Colour	Green
Maximum temperature	400 F
Tensile strength	50 lbs/inch
Elongation	110%
Peel adhesion	35 oz/inch
Diameter	ø18
Number	60 pieces
