

## DOUBLE-SIDED TAPE

### GENERAL

| CODE  | DESCRIPTION                    |
|-------|--------------------------------|
| DST06 | Double-sided tape 6 mm x 10 m  |
| DST09 | Double-sided tape 9 mm x 10 m  |
| DST12 | Double-sided tape 12 mm x 10 m |
| DST19 | Double-sided tape 19 mm x 10 m |

### DESCRIPTION

Double-sided tape is made with a viscoelastic acrylic foam. This special foam structure allows the tape to absorb energy and relieve stress, giving it its unique performance characteristics. Thanks to its acrylic chemistry, the tape also offers excellent long-term durability.

### FEATURES

- Acrylic-based adhesive tape for attaching strips, registration plates and accessoires to cars.
- Strong initial contact; offers superior adhesion at any given temperature.
- Maximum adhesive strength is achieved in a very short time
- Resistant to UV light
- Degrease the surface thoroughly before starting
- Quick and easy to apply

### PHYSICAL CHARACTERISTICS

|                       |        |
|-----------------------|--------|
| Temperatuur resistant | 149°C  |
| Thickness             | 1,1 mm |
| Tensile strength      | 61     |
| Elongation at break   | 50%    |
| Peel adhesion         | 87.5   |
| Color                 | Red    |
