

## FOAM PAD YELLOW

### GENERAL

CODE	DESCRIPTION
<b>POL30</b>	Foam pad waffled yellow ø150
<b>POL70</b>	Foam pad waffled yellow ø80

### DESCRIPTION

The yellow waffle foam polishing pad is designed for heavier polishing work and the correction of more visible paint defects. Its waffle foam structure helps reduce heat build-up, improves polish distribution, and ensures an even polishing action across the surface. This pad is suitable for removing swirl marks, moderate scratches, oxidation, and other signs of wear on painted surfaces.

### FEATURES

- For obtaining a high gloss
- With the waffled shape, minimal effort is created for a perfect mirror shine
- Minimal aggressive
- Can be used for gloss optimization
- For medium to heavy paint correction
- Waffle foam structure for improved heat control
- Removes swirl marks, scratches, and oxidation
- Supports even polish distribution
- Suitable for painted surfaces
- Combines cutting performance with controlled finishing
