

FOAM PAD BLACK

GENERAL

CODE	DESCRIPTION
POL40	Foam pad waffled black ø150
POL80	Foam pad waffled black ø80

DESCRIPTION

The black waffle foam polishing pad is designed for fine finishing and bringing painted surfaces to a high gloss. Its soft waffle foam structure ensures smooth operation, reduces heat build-up, and helps distribute the polishing compound evenly. This pad is ideal for removing light holograms, haze, and very fine imperfections, while refining the final result.

FEATURES

- Soft foam pad for removing holograms
- For obtaining a high gloss
- With the waffled shape, minimal effort is created for a perfect mirror shine
- Minimal aggressive
- Can be used for gloss optimization
- Creates a deep and uniform gloss finish
- Reduces heat build-up during polishing
- Refines the surface without aggressive correction
- Supports a clean final result
- Particularly suitable for finishing with fine polish
