

GRAVITY CUP 600ML

GENERAL

CODE	DESCRIPTION
C600	Gravity cup 600ml

DESCRIPTION

The 600 ml gravity cup is a practical paint reservoir cup for use with spray guns in the automotive refinish industry. The cup is designed for the application of primers, fillers, basecoats, clearcoats and other coatings. With a capacity of 600 ml, this top cup is suitable for both small and medium-sized paint jobs.

APPLICATIONS

The gravity cup is used in combination with a suitable spray gun for professional paint applications in the automotive body repair sector.

FEATURES

- Capacity: 600 ml
- Compatible with Gerko Performance Pro and Elite 1 spray guns
- Suitable for various paint and coating products
- Practical size for efficient working
- Ensures a uniform product flow to the spray gun
- Suitable for professional use in body repair

ADVANTAGES

- Easy to use
- Ideal for precision work and general paint applications
- Lightweight and practical in use
- Supports consistent product application
- Suitable for daily use in the spray booth or workshop

USE

Attach the gravity cup correctly to the spray gun and fill it with the desired product according to the paint manufacturer's instructions. Clean the cup thoroughly after each use to maintain optimal performance.

REMARK

For professional use only. Always check compatibility with the spray gun and the product used.
