

GRAVITY CUP 100ML

GENERAL

CODE	DESCRIPTION
C100	Gravity cup 100ml

DESCRIPTION

The 100 ml gravity cup is a compact paint reservoir cup for use with spray guns in the automotive refinish industry. Thanks to its small capacity, this cup is particularly suitable for spot repair, small repairs, test applications and precision work. The cup can be used for the application of primers, fillers, basecoats, clearcoats and other coatings.

APPLICATIONS

The gravity cup is used in combination with a suitable spray gun for small paint applications and precise repairs in the automotive body repair sector.

FEATURES

- Capacity: 100 ml
- Compatible with Gerko Smart Performance Pro spray gun
- Compact and lightweight design
- Suitable for small quantities of paint
- Ideal for spot repair and precision work
- Ensures a uniform product flow to the spray gun

ADVANTAGES

- Ideal for small repairs and detail work
- Less product waste for small applications
- Lightweight and practical in use
- Easy to install and clean
- Supports controlled and precise product application

USE

Attach the gravity cup correctly to the spray gun and fill it with the required product according to the manufacturer's instructions. Clean the cup thoroughly after each use to maintain optimal performance and clean application.

REMARK

For professional use only. Always check compatibility with the spray gun and the product used.
