

TACK RAGS

GENERAL

CODE	DESCRIPTION
TR50	Tack rags

DESCRIPTION

Adhesive cloth of superior quality for dust retention. The cotton cloth is specially designed to collect and remove from surfaces loose contaminants such as dust, dirt, hair and lint. The corrugated tack cloth is recommended for large dust particles, but also picks up the smallest dust particles in no time.

PROPERTIES

- Great adhesion due to the combination of woven cotton and a unique impregnation
- Impregnated with water-based product
- Works antistatically
- Never leave traces of glue that could react with any lacquer
- Does not harden or dry out
- Free of lint
- Suitable for use in paint-processing environments (water-based and conventional lacquers)

TECHNICAL SPECIFICATIONS

Material	Woven cotton fabric. Impregnated
Cloth type	Waffled / Textured
Dimensions	80 x 90cm
Packaging	Box of 50 pieces

EXTRA

How do I use the corrugated adhesive cloths?

Use before applying lacquer. Lightly wipe over the surface so that all contaminants are absorbed by the cloth. Do not use on warm or hot surfaces.

What are the corrugated adhesive pads suitable for?

Corrugated tack cloths are ideally suited for use within car body repair, commercial car repair, woodworking, etc.

What was this product developed for?

The cotton tack cloths have been specially developed to easily remove loose contaminants such as dust, dirt, hair and fibres.
